

Queen Anne's County Public Schools

This report shows the number of newly reported CONFIRMED POSITIVE CASES among QACPS staff and students in the past seven days. These numbers are for this time period only and are not cumulative. It will be updated every Friday afternoon when school is in session.

The content contained on this website is dependent on the expectation that QACPS parents/guardians and staff self-report confirmed positive cases. QACPS relies on self-reporting or confirmation from the Queen Anne's County Health Department for all positive cases. Therefore, the information contained on this page includes only students and staff who have tested positive and may not accurately reflect the total number of positive cases of COVID-19 within the QACPS community at-large.
