Queen Anne’s County High School Alumni Association

The QACHS Alumni Association is now official. After more than 50 years of graduates, this endeavor is long overdue! Keep up on the news of the Alumni Association on this web page. Since the school was opened in September 1966, more than 15,000 people have graduated from QACHS. As a strong and united group, we can and will offer scholarship opportunities for members and their direct descendants. We will promote and support the educational and career development opportunities for graduates and will further support the educational and developmental programs at the school.
