Fall 2020

Course Description
The course integrates algebra and trigonometry topics to prepare students for calculus and higher-level mathematics. Topics included are polynomial, rational exponential, logarithmic, trigonometric, and inverse trigonometric functions and their graphs; trigonometric identities and trigonometric equations; appropriate applications of trigonometry; and analytic geometry. This course is aligned with Chesapeake College’s College Algebra, Math 115, in order to better prepare students for their future college mathematics courses.

Expectations
Be Respectful
Be Present
Be Prepared
Be Mindful

Grading
50% Mastery (at least 7)
50% Progress (at least 24)

Students may retake a Mastery Assessment (unit test) if they score below a 70%. Mastery assessments could be unit tests, projects or a cumulative assessment for the course.

Progress grades can be from classwork, homework, warm-ups, quizzes and/or other work completed for the course. Work will be considered LATE after 3 school days and deduction of points will occur. Assignments will not be accepted after 10 school days.

Materials
- Notebook/Binder
- Pencils/Erasers
- Laptop/Schoology
- Calculator

Academic Honesty
All students at Queen Anne’s County High School are expected to conduct themselves with great pride in academics and the community at large. To this end, it is expected that all students will maintain academic integrity in every assignment. Work must be completed individually unless otherwise directed by the teacher. Plagiarism is a severe offense at QACHS and will result in immediate consequences. The use of Photomath and other electronic sources is a form of plagiarism.

Schoology
CODE
**Attendance**

Students must log into our class on schoology every school day to be counted as present. Students should complete daily work to keep up the class. The teacher/school should be contacted if a student will be absent from class. Student are responsible for all missing work due to an absence.

**Online Learning Expectations**

**Synchronous** – Join the video conference on time and have materials ready. These materials include pencil, paper, calculator and any websites needed to complete math work. Have Schoology open and ready to go in a browser. You are expected to be on the video conference for the duration of class. Please find a quiet place in your house and give yourself an area to work.

**Asynchronous** – Assignments that are asynchronous are to be done on your own; however, I am available for help during the designated asynchronous period. Also during this time you may be asked to attend a video conference for small group instruction. Small group instruction, if assigned, is mandatory.

**Check-in Day** – Every Wednesday there will be a brief 10 minute video conference or check in to provide a brief period of instruction and to ensure all students are on track with the current assignments. Students will also complete an asynchronous assignment on check-in day.

**Office Hours** – Every day except for Wednesday there are Office Hours set aside for reteaching, 1:1 or group tutoring, small group instruction and student/parent meetings. You may schedule a time during office hours for tutoring. You may also attend a tutoring or instructional video conference during office hours. Office hours are considered part of the school day, so tutoring or conferences scheduled during this time are mandatory. If there is an instructional conflict during the requested time, we will work together to find a time that works.

**Course Topics and Outcomes**

- Algebraic and Transcendental Functions,
- Graphs and Transformations (i.e., Polynomial, Rational, Exponential, Logarithmic, Trigonometric, etc.)
- Right Triangle Trigonometry, Trigonometric Identities and Equations
- Trigonometry of Non-right Triangles
- Linear Systems, Matrices, Determinants
- Conic Sections
