Dr. McCoy’s Corner:
The end of the marking period is fast approaching and it will be necessary for students to make up work and/or turn in missing assignments prior to January 27th. Please check PowerSchool for your student’s current progress and contact the appropriate teacher if you have any questions.
Please continue to help me with the following:
• remind your child to inform administrators or staff about any incident of bullying or threat-related to themselves or others;
• monitor your child’s use of social media;
• educate your child about the dangers of tobacco, vaping, drug and alcohol use; and
• encourage your child to have positive interpersonal skills with each other.

The art department is looking for supplies for our new mural: donations would be appreciated. We are in need of paint brushes (all sizes), drop cloths, indoor latex paint, rollers, rags, towels and blue painters tape are needed.
Is your child interested in STEM? What can you give a young inventor, coder, builder or maker to keep them inspired and engaged in and out of school? We asked PLTW outstanding teachers to compile our 2019 STEM gift list of fun and educational toys, games and activities that support STEM exploration.

Check out their recommendations here -
