Everyday Supply List
✓ Chromebook & Charger
✓ Notebook for vocabulary (spiral or composition)
✓ Pencils with erasers
✓ Colored pencils

Expectations
- Come to live class and small group sessions on time.
- Follow the academic honesty policy.
- Review all feedback from teacher on submitted assignments.
- Treat others with respect.
- Always try your best but contact the teacher if you need help.

What We Will Learn:
Students in 6th grade will develop an understanding of a wide range of topics in Earth and Space Science (ESS) that build upon science concepts from elementary school through more advanced content, practice, and crosscutting themes that tie into the Life and Physical Sciences as well. There are six ESS standard topics in the 6th grade curriculum: Space Systems, History of Earth, Earth’s Interior Systems, Earth’s Surface Systems, Weather and Climate, and Human Impacts. The performance expectations outlined within these topics reflect many real world, relevant aspects such as use of natural resources, impacts of natural hazards, and environmental impacts, as well as related connections to engineering and technology.

Units
- Thinking Like a Scientist
- Solar System and Beyond
- Weather and Climate
- Land Water and Human Interactions
- Geologic Processes
- Earth’s Resources

ACADEMIC HONESTY
Students are held to the highest standards of academic integrity and honesty. There is a zero tolerance for cheating or plagiarizing on homework or classwork. NOTHING can be gained in the short-term from cheating. Students caught copying, plagiarizing, or turning in work they did not complete will receive a 40% on the assignment, communication with your parent/guardian, and possible referral.

Office Hours
8:00-11:15 am
Small group student
11:45-12:15 1st
12:30-1:00 2nd
1:15-1:45 3rd
2:00- 2:30 4th
2:45-3:15 5th-UA

Grading Scale

- A
- B
- C
- D
- E

or below

Assignments

Progress Assessments: 50% (Classwork, Progress Checks)

Mastery Assessments: 50% (Mid & End of Unit Tests & Projects)

Policies

Late Policy- A student who does no work on the assignment or fails to turn in the assignment, will receive an “NTI” (NTI = Not Turned In). The “NTI” will be a grade of a 40% if the student does not turn in the work. Work accepted after the due date is not subjected to a lower grade due to lateness. Students have up until the Mastery Assessment to turn in missing assignments, however, once the Mastery Assessment is taken for the those standards, any work not received will remain the grade of NTI, with the grade of 40%.

Revision Policy- A Progress Assessment can be redone one time up until the Mastery Assessment is taken.

My expectation for parents and caregivers is to be a positive support system for our students. Encourage them to try their best on their work and show up to class sessions as much as possible. Focus on helping your student with directions and organization and leave the science content questions to me if you feel discouraged. Never hesitate to contact me with your questions!

We can do this together!
