Wanted:
Adult Mentors for QAC Youth

Do You Have What It Takes To Help Me?

Interested in guiding boys and girls in making positive choices in their lives? Want to give a little time and get a lot in return? We are looking for caring and supportive adults to be a part of a community mentoring program for students in Grades 5–12 (elementary, middle, high school and the alternative school) in Queen Anne’s County. We are also looking to assist “Opportunity Youth” ages 16–24 in need of academic and career development. Advisory Board members are also needed.

Make a difference for our youth who are in need of achievement mentoring. Mentoring helps youth to make better decisions that affect their lives. Mentoring empowers youth to fulfill their dreams.
